

Logic 1 (PH126/PH136) for TAs: Agenda

- how students are assigned to seminar groups.
- what happens in the seminars? (problem classes—students solve problems);
- when do seminars run? (x8 problem classes: weeks 2–5,7–10).
- the textbook
- schedule of lectures, readings and weekly exercises (see logic-1.butterfill.com).
- what marking is involved? (weekly exercises; most but not all auto-graded; comment on all incorrect exercises.)
- using logic-ex
- **TAs must complete the all exercises themselves in advance of marking the students' work**; set me (s.butterfill@warwick.ac.uk) as your seminar tutor so that I can easily check your progress.
- tracking attendance at seminars
